API Standard 521 - Guide for Pressure-Relieving and ...

In the API 521 (fifth edition, para 5.14.4.1), there is a formula to calculate the final pressure of trapped liquid for thermal expansion case. I have two questions; I want to use this formula and justify that for my case, athermal relief valve is not required due to huge difference between maximum operating pressure (3.5 barg) and design pressure (100 barg) of pipe.
