The MPS-100 is a complete presentation control and signal routing solution for boardrooms and classrooms. Integrating the control system, multimedia switcher, audio controls and amplifier into a single 2-space rackmount package, the MPS-100 eliminates the need for separate components without forfeiting performance or flexibility.

MPS-100 [Crestron Electronics, Inc.]

Crestron AirBoard integration with the AM-200/300 is entirely configuration-based. When the Crestron AirBoard device is paired with the AM-200/300, programmatic control is not supported in SIMPL Windows or SIMPL# Pro. If custom program controls for a Crestron AirBoard device are required, use a DGE-100 in place of an AM-200/300.
