flush of your radiator and heater core. Flushing and replacing your coolant will help your vehicle stay at the correct temperature under pressure. Make An Appointment

## **Radiator & Coolant Flush Service | Goodyear Auto Service**

A coolant change involves simply

## Online Library Engine Coolant Replacement

draining the coolant at the bottom of the radiator, then topping up the radiator with fresh fluid until it's full.

Alternatively, the technician can remove the drain plugs on the engine block, which lets all the coolant drain out of the engine and cooling system components, and then top up with new coolant.
