A book review : Greyhound by Steffan Piper » TheSkyKid.Com

Reading Steffan Piper's Greyhound took me back to that memory because of how classic musicians play such a large role in the story. Bonus: the role is through cassette tapes. Greyhound starts when Sebastien Ranes's mother drops him off at the Stockton, California, Greyhound station with a ticket to Altoona, Pennsylvania and about \$30.

The quirky cover and noting that magic era - the 1980s - in the blurb persuaded me to take a
chance on Steffan Piper's novel (well, that and the bargain basement price). Overall, the story didn't
disappoint, either - Sebastien's cross-country adventure with Marcus on a series of Greyhound
buses is well paced and quaintly nostalgic (Hall and Oates, though?)
