Introduction to Philosophy: Knowledge and Reality

Many postmodernists deny that there are aspects of reality that are objective or that there are statements about reality that are objectively true or false (implying metaphysical relativism), that it is possible to have knowledge of such statements (implying epistemological skepticism or relativism), and that there are objective, or absolute, moral truths or values (implying ethical subjectivism or relativism). Instead, reality, knowledge, and value are constructed by "discourses ...

postmodernism | Definition, Doctrines, & Facts | Britannica

Reality is the independent nature and existence of everything knowable, whether it is knowable by logical inference, empirical observation, or some other form of experience. Reality's existence and nature are independent because reality does not depend on our mind's apprehension of it to continue to exist or to maintain its character.
