Tos Lathe Manual - ftik.usm.ac.id

The good news is I have the manual and I PDF it. It is a TOS czech lathe 1958~1959. The bad news is the manual is in czech. If it was my old lathe I think it is, I did change the oil in it. With some cheap 32 hydraulic oil after draining and cleaning with kerosene. The oil that was in there was like molasses.

In 1959, we manufactured our first
vertical lathe with continuous working
feed, numerically-controlled axes
movements and tracing. This machine
was built based on TOS Hulín's
proprietary design and was the first
numerically controlled machine tool
produced in Czechoslovakia, and also
one of the first numerically controlled

lathes in the world.

History - TOSHULIN

The manual states that when the carriage lever is lifted up, the lathe will run forward-is this correct? The lathe was set up to run forward when the handle was pushed down, when you bring it back the clutch disengages, and if you lift it up it brakes (as in puts on the brakes).
