(2) In macroeconomics, a period in which nominal wages and other input prices do not change in response to a change in the price level. Long Run (1) In microeconomics, a period of time long enough to enable producers of a product to change the quantities of all the resources they employ, so that all resources and costs are variable and no ...

Unit 7 MacroEconomics Flashcards | Quizlet

Research in macroeconomics in the last thirty years has featured, almost exclusively on two characteristics: an emphasis on the microfoundations of macroeconomics and secondly, intertemporal economics, that is, the behavior of economic actors over time. Curiously, textbooks in intermediate macroeconomics have been very slow to adopt these traits.

UNIT IV Essay 2 The main goal of every government is to get rid of all forms of unemployment or to keep it at a minimum. In certain cases, it does not occur, and the main governments and authorities go to establishing and trying to gain a reasonable level of unemployment. The United States of America has the same goals. The United States has the world's largest economy, and even though there ...
